Even though you could argue that 911 Operator wasn't that visually impressive, you cannot say the same for 112 Operator.. Even though it's still a view looking down on the map, everything is a lot more sleek and cleaner, and a bit more modern too, particularly when zooming in, in case you have several cases going on in a small area.. But 112 is an emergency number in some other countries, according to the U S Department of State.
